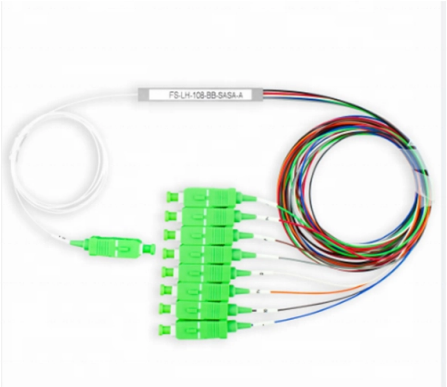
200kW Distribution Box Specifications



Overview

Outdoor 200KW power cabinet with 54 output circuits, IP54-rated, supports remote control, monitoring, and fire/smoke alarms via multifunction card. Operates on AC 380V with full protection features and built-in CHINT surge protector. Includes brightness sensor and DIN-mounted 40A. This Cummins rental package is a fully integrated mobile power generation system, providing optimum performance, reliability, and versatility for standby and prime power applications. 3© with Masterless Load Demand (MLD) technology enables smartly adapting power to match varying load. The PD Power Systems 200KW PDP is designed to accept power at 120/208 VAC, 3-phase, utilizing 400-amp input terminals. to adopt the time-delay power transmission function can effectively avoid the load on the network. Can be Start and stop by on-site buttons.
