720-core optical cable distribution box

Overview

19 Inch Fiber Optic Terminal Box with 720 Cores capacity and 0. Fiber optic cross connect cabinet is an outdoor optical equipment that is especially designed for outdoor optical nodes in access network. Adopting an integrated pull-out module with fusion, the. Features:1. Product name: Outdoor 720 cable distribution frame distribution box 2.Box material: cold rolled plate, surface coating spray plastic, light structure and beautiful appearance 3. Protective: Cable transfer function and patch cord. OEM ODM Optical Fiber Distribution Frame ODF Rack 19 inch 720cores 2m 2. Temperature:. The box is made of SMC through high-pressure compression molding, with a long service life, anti-aging, radiation resistance, and no need for any protection on the surface. It has all-weather protection function. The box is thick and has strong sealing and good insulation effect, which can. SJ-ODF-01 720 cores fiber optic distribution frame ODF can provide a high quality transmission with excellent return loss and minimal crosstalk. The use of fiber optics in the network offers many benefits over conventional copper wire such as increased bandwidth, more flexible installation, small. YODF-A Type2 Optical Distribution Frame, also known as ODF, is mainly used for the terminal and distribution of the main optical cable in the optical fiber communication system.
