24-core fiber optic junction box splicing

Overview

The 24 Cores Termination Box is a reliable and cost-effective solution for fiber optic cable splicing and termination. Perfect for FTTH and FTTX networks. The hermetically sealed closures. Features RoHS compliant Can be used in through, branch or mid span splice locations Suitable for aerial, underground duct or direct burial applications Great mechanical performance Great resisting aging performance High air-proof, damp-proof and resisting,lightning strike performance Can be place. GJS-24-D (PLC) 24 Cores SC fiber optic joint closure is a kind of small junction box that is used to join the fiber bundles and protect them during cabling installation, preventing the cables from abrasion and other damage. It has many advantages: excellent waterproof performance, lightweight,small. Can orderly store fiber connector and remaining fiber, in which the storage disc can be up to four layers large capacity and adjusted according to the number of cores connected by the optical cable. It can accommodate from 12 fibers to 24 fibers with 1 or 2 splice trays.
