Huawei All-Optical Networking Switch

Overview

Based on Huawei's Versatile Routing Platform (VRP), CloudEngine S5736-S supports enhanced Layer 3 features, simplified Operations and Maintenance (O&M), flexible Ethernet networking, and mature Internet Protocol version 6 (IPv6) features. CloudEngine S5736-S Series Switches are next generation standard all-optical GE switches, with 48 downlink optical ports and four 10 GE uplink ports. They can function as core, aggregation, and access devices on campus networks and connect to upstream and downstream devices. The OptiXstar product series extends optical connectivity to every home, enterprise, and campus, bringing families closer and making enterprise operations far more efficient. Huawei Sensing OptiX focuses on four aspects — ultra-long-distance comprehensive sensing, precise positioning, high security. The Xingmai Passive Ethernet Network (PEN) is an all-optical campus network solution based on the passive technology. This solution. Huawei's comprehensive portfolio of products and solutions enables you to realize smooth digital transformation and rapid growth of virtualization, Big Data, and cloud services. Huawei switches already help customers achieve success in industries such as finance, Internet, retail, education.

CloudEngine S5736-S Series Switches | Huawei Enterprise

Feature-rich with software-defined port speeds. CloudEngine S5736-S Series Switches are next generation standard all-optical GE switches, with 48 downlink optical ports and four 10 GE uplink ports.

Huawei S5736 Switch: All-Optical Campus & Enterprise

The Huawei S5736 Switch series offers all-optical gigabit access, layered intelligence, and flexible uplink speeds—positioning it as an exceptional

What Is an All-Optical Ethernet Switch?

This is where Huawei''s all-optical Ethernet switches come in. An all-optical Ethernet switch provides both optical uplink and downlink ports, and uses optical fibers that feature high

Huawei Ethernet Switch & Network Switches Solutions

Thunder link offers various models of Huawei Ethernet switches and network switches, including the S5720, S6720, S6730, CE6800 and CE12800, designed

Intelligent OptiX Network | OptiX | All-Optical

Huawei''s intelligent OptiX network strategy aims to build intelligent, simplified, ultra-broadband, and ubiquitous next generation all-optical networks.

PEN Passive Aggregation Module

The Xingmai Passive Ethernet Network (PEN) is an all-optical campus network solution based on the passive technology. Leveraging mainstream Ethernet protocols, the Xingmai PEN solution uses

Huawei All-Optical Network Overview

It accelerates new infrastructure construction and facilitates carbon neutrality with a simple, intelligent, two-layer active to passive optical network that reduces costs

Network Switches | Huawei Enterprise

Designed for scenarios such as data centers, enterprise campuses, and enterprise private lines, making networks more simple, smart, open, and secure, as well as

Campus Switches

The CloudEngine S5331-S series switches are based on next-generation high-performing hardware and the Huawei Versatile Routing Platform (VRP). The

Example for Configuring Passive Ethernet All-Optical Networking

This document describes the Passive Ethernet Network (PEN) solution, including its introduction, typical deployment scenarios, deployment guide, typical faults, and FAQs.

Optical-AI Convergence: Huawei Launches Upgraded F5G-A All-Optical ...

For campuses, Huawei has upgraded its Fiber to the Office (FTTO) solution from "pure connectivity" to iFTTO solution that integrates networking, sensing, computing power, and

Huawei Network Switch S5736-S24UM4XC with 24*100M/1G

The Huawei Switch S5736-S24UM4XC (Part Numbers: 98011020, 98011020-001, 98011020-004) is part of the CloudEngine S5736-S Series, featuring next-generation standard all-optical GE switches with

Huawei Proposes Building an AI-Centric All-Optical Target Network to ...

End-to-end OXC metro network to improve AI experience: The brand-new OXC solution extends all-optical switching to metro networks, reducing end-to-end network latency and building a

Optical Switches Market Size, Demand & Trends 2035

The all-optical Switches segment will cover 42% of the industry share in 2025, with markets migrating to ultra-fast latency optical networking. These

Huawei proposes building an AI-centric All-optical target network to ...

Zero-outage optical network to ensure always-on AI services: Coordinated hardware-software upgrades, algorithms, and eOTDR technology help operators precisely identify and mitigate network risks.

Thunder-link: Huawei OLT | WDM | Switch | Router,

10+ years Experienced Huawei Supplier, buy original Huawei OLT, WDM, Switch, Router, global shipping & warranty- Thunder-link

Huawei Proposes Building an AI-Centric All-Optical Target Network to ...

BARCELONA, Spain, March 3, 2026 /PRNewswire/ -- During MWC Barcelona 2026, Huawei shared its vision for building an AI-centric all-optical target network at the Green All-Optical Network Forum ...

Optical Module Solutions for Huawei S5700/S5720 Series Switches

© 2026 DOLPHIN FIBER SYSTEMS - All rights reserved

When using switches, we may encounter many confusions, such as what types of optical modules are needed for different models of Huawei switches, and how to resolve issues encountered
