901 Optical Cable

Overview

This standard specifies the product classification, requirements, test methods, inspection rules, signs, instructions for use, packaging, transportation and storage of loose-layer stranded outdoor optical cables. The polyethylene (PE) jacket makes the cable suitable for installation in underground ducts or direct burial. The corrugated steel tape provides mechanical and rodent protection. Multi. These cables are mainly used for long-distance communication and inter office communication outdoors, suitable for pipelines, non self supporting overhead, and can also be laid in trenches and cable trenches. GYTA optical fiber cable from LX Cable. Stranded loose tube, APL armor, PE. The UCS 900 Series are Fiber Optic USB 5Gbps Extenders that extend USB data signals from peripheral devices to a host computer over fiber optic cable.
