Customized New Intelligent Distribution Box

Overview

The customizable distribution box represents a revolutionary advancement in power management and electrical distribution systems. With an extensive distribution network across Europe, the company has established a strong presence in multiple markets and continues to expand its product portfolio. The intelligent temporary power box is a product composed of IoT devices such as intelligent circuit breakers, intelligent sensors, and intelligent meters. Thanks to ABB tools, pre-defined reference architectures, and the cooperation with EPLAN Company. Reliable Partner of Power Distribution Box with 15 Years of Experience Submit your requirements or design draft to us, and we'll provide a free design and deliver a high-quality prototype in just 15 days – ensuring your project stays on schedule with speed and precision.
