Coherent optical module 80km

Overview

The QSFP28-100G-ZR4 transceiver helps connect devices far away. It can reach up to 80km using single-mode fiber. This saves time and keeps your network working. The QSFP28-100G-ZR4 uses LAN-WDM. Cisco ® QSFP28 100G ZR extends 100GbE coherent links from QSFP28 ports reaching up to 80km over dark fiber and up to 300km over amplified Dense Wave Division Multiplexing (DWDM) links. The Cisco QSFP28 100G ZR module expands the portfolio of digital coherent optics (DCO) modules to connect QSFP28. We offer both the DWDM-100G-Q28-120 and the DWDM2-100G-Q28-80, and we also frequently get a lot of questions regarding these modules, their differences, and their specifications. So we decided to compare both of these modules. In this article, you will find all of the right answers to your. This 100G CFP2 Coherent DWDM 80KM optical transceiver is a high-performance, compact optical module engineered for long-haul and metro optical communication networks. Adopting advanced coherent modulation technology, it delivers 100Gbps high-speed data transmission over 80 kilometers of single-mode. Built around Coherent Steelerton DSP, the 100G ZR QSFP28-DCO transceiver is fully compliant to the IEEE 802. 3™-2022 100GBASE-ZR standard, ensuring interoperability with other solutions. The Steelerton DSP is the first purpose-built DSP for 100G ZR applications, optimized for the lowest power. HTFuture's 100G QSFP28 ZR4 Optical Module offers 80km SMF transmission at 100Gbps, perfect for high-speed data centers. However, questions around technology, standards, and platform support still create confusion.

Cisco QSFP28 100G ZR Digital Coherent Optics Module Data Sheet

Cisco QSFP28 100G ZR extends 100GbE coherent links from QSFP28 ports reaching up to 80km over dark fiber and up to 300km over amplified DWDM links.

100G DWDM QSFP28 80 vs 120: Complete

Compare 100G DWDM QSFP28 80km vs 120km modules. Learn differences in optical budget, power, DCM requirements, and best applications.

100G CFP2 Coherent DWDM Transceiver

This 100G CFP2 Coherent DWDM 80KM optical transceiver is a high-performance, compact optical module engineered for long-haul and metro optical

100G QSFP28 ZR4 80km Optical Module

HTFuture''s 100G QSFP28 ZR4 Optical Module offers 80km SMF transmission at 100Gbps, perfect for high-speed data centers.

QSFP28 ZR Coherent Optics: 100G Long-Haul & DCI Guide

QSFP28 ZR coherent modules, using a tunable laser and advanced DSP, are optimized for 80km+ transmission. They come with slightly higher power consumption and added DSP

QSFP28 100GE/OTU4 DWDM Coh-T 80km 22dB

The TQ2025-TUNx-SO is a pluggable QSFP28 DWDM transceiver designed for high capacity 100 Gigabit Ethernet (100GbE) Data Center Interconnect (DCI)

100G QSFP28 ZR DCO Coherent, Tunable, 80/300km,

Compatible with IEEE 100G Ethernet (CAUI-4) and ITU-T 100G OTN (OTL4.4) interfaces, this module offers 100G transmission with a reach of up to 80km

A Deep Dive into the QSFP28-100G-ZR4 Optical

Its advanced coherent optics technology makes 80km 100G optical links not just possible, but practical and reliable. For network architects and

50GHz 200G CFP2 DCO Coherent Module Reach

The optical module consists of three functional parts: TX module, RX module and control module. All the control interface pins are provided by an internal

Hilink Optics QSFP QSFPDD OSFP 10G SFP

© 2026 DOLPHIN FIBER SYSTEMS - All rights reserved

If you have any questions about Hilink Optics CWDM DWDM QSFP QSFPDD OSFP 10G SFP transceivers,we will give the professional solutions to you.

How Coherent Optics Improve DCI Reach and Energy Efficiency

Modern data center interconnects (DCI) often require high-capacity optical links over tens to hundreds of kilometers. Traditional IM-DD (Intensity Modulation with Direct Detection) modules—using NRZ or

400G, 800G, and Terabit Pluggable Optics:

Coherent optics Coherent 16-QAM 4 bit/sec/symbol Using more complex modulation allows us to increase the data rate (Gb/s) without increasing the signaling speed (Gbaud)

Coherent Demonstrates Multiple Technologies for Co

These demonstrations highlight Coherent''s ability to support multiple optical architectures for co-packaged optics, leveraging its expertise across key

Lasers | Coherent

Industry leading Coherent Lasers bring technical innovation and deliver better results and value in, medicine, OEM instrumentation, and manufacturing.

400G Optical Transceiver Guide | 400G OSFP SR4,

The 400G-ZR module is built for long-haul transmission, reaching up to 80 km using coherent optical technology. It is designed for metro and regional

Coherent Corp. Reports First Quarter Fiscal 2026 Results

November 5, 2025. Coherent Corp. announced financial results today for its first quarter of fiscal year 2026 ended September 30, 2025

Coherent Demonstrates Technologies for Next-Generation Pluggable ...

Coherent will showcase a comprehensive portfolio of next-generation pluggable optical technologies at OFC 2026, spanning 1.6T, 3.2T, and emerging architectures for 12.8T and beyond.

Coherent Optical Equipment Market

The Coherent Optical Equipment Market in 2024 encompassed coherent modules, optical amplifiers, coherent line systems and test equipment with installed coherent ports measured in the
