AXS optical module

Overview

The EXFO AXS-130-SM8 is a compact, rugged single-port OTDR featuring triple-wavelength capability (1310/1550/1650 nm), Optical Link Mapper, swap-out connector, integrated VFL, light source, and power checker. LX is a small form-factor pluggable (SFP) transceiver that supplies network devices, such as a switches or routers, with a fiber optic network connection. It is industrial grade with a wide temperature range (between -40 °C to 65°C), and it includes loss of signal feature. The AXS13-192-10 1310nm DFB 10Gigabit Transceiver is designed to transmit and receive serial optical data over single mode optical fiber with 10KM. They are compliant with SFF-8431,SFF-8432,10GFC Rev 4. Featuring single-screen results, cloud connectivity, patented connectors, and optimized views. Perfect for FTTx, access networks, and metro deployments. Detail can be checked on Figure HiFiber's Customized. Image shown is a representation only. Exact specifications should be obtained from the product data sheet.
