Data Center Network Intelligent Cabinet

Overview

They provide a secure and efficient housing for both active and passive components such as servers, switches, data cables, patch panels, and UPS systems. With high load capacity, optimized cable management, and effective ventilation and cooling systems, network cabinets . er, cooling and service. The biggest advantage is its Zero U spac for non-core IT assets. Critically it also allows the most vital element - namely 360° visibility fied as per requirement. U space available is subjected to cha e as per configuration. Nexpand provides you with an unmatched level of flexibility and modularity to mount accessories within the cabinet for your evolving needs. It also offers best-in-class energy efficiency and high-level access. Siemon offers a wide range of cabinet solutions to meet any application or configuration – from networking and storage, to servers and distribution points. Siemon's self-contained V800 cabinets provide a robust, cost-effective enclosure solution that offers valuable zero-U space on each side of the. Today, network cabinets and enclosures are a central part of every IT infrastructure, driven by the rapidly increasing number of network interfaces. Due to the pandemic, much like other educational institutions, Universiti Tunku Abdul Rahman (UTAR) had to move their in-person lectures.
