Diode DPSS Laser

Overview

A diode-pumped solid-state laser (DPSSL) is a solid-state laser made by pumping a solid gain medium, for example, a ruby or a neodymium-doped YAG crystal, with a laser diode. DPSSLs have advantages in compactness and efficiency over other types, and high power DPSSLs have replaced ion lasers and. Most diode-pumped lasers are solid-state lasers (DPSSL = DPSS lasers = diode-pumped solid-state lasers). The front window consists of a wedged glass filter, which blocks the IR source light and hermetically seals the module. DPSS lasers can be. A Diode-Pumped Solid-State (DPSS) laser is a modern laser design that uses a semiconductor laser diode as the energy source to excite a solid material, which then produces the final laser beam. LASOS DPSS-XP Lasers offer outstanding beam quality across a wide wavelength spectrum.

Article Content

Diode-pumped Lasers – DPSS lasers, diode pumping, all-solid-state

A diode-pumped laser is a type of laser that uses one or more laser diodes as the optical pump source to excite the gain medium, as opposed to older technologies which often use gas discharge lamps.

532 nm Diode-Pumped Solid State (DPSS) Lasers

DPSS lasers can be used like any typical semiconductor laser diode, but offer a much smaller beam divergence. Please note that these laser modules are

How a Diode Pumped Solid State Laser Works

© 2026 DOLPHIN FIBER SYSTEMS - All rights reserved

A Diode-Pumped Solid-State (DPSS) laser is a modern laser design that uses a semiconductor laser diode as the energy source to excite a solid material, which then produces the

DPSSL-XP Series

The LASOS® DPSS-XP Laser is our latest version of a compact, diode-pumped solid-state laser model. It encapsulates over 20 years of development and

A universal autofocusing system for lasers – diode, DPSS, fiber, Co2 ...

Endurance lasers developed a laser autofocusing system for diode, DPSS and Co2 lasers. Now you can always remain in focus and the system will keep your laser in focus all the time you do laser cutting

Lasers: Understanding the Basics

Other lasers, like Nd or Yb diode-pumped solid-state (DPSS) lasers, lend themselves to be operated both in CW or pulsed operation. Other lasers, like

Fiber Coupled Laser (MM) : Laser diode module, DPSS laser ...

Fiber Coupled Laser (MM) Multi mode fiber coupled laser Single mode fiber coupled laser Pigtail laser Most DPSS lasers and Semiconductor Lasers can be customized to Fiber coupled lasers. So please

Laser Manufacturer & Supplier in Singapore

Specialized in laser, optics & laser components - CO2 laser, fiber laser, DPSS laser, diode laser, red and blue laser, green laser, mirror, output coupler, scan lens, f

DPSS Laser Marking Machine Market Study Findings with ...

The dynamic DPSS (Diode-Pumped Solid-State) Laser Marking Machine Market is characterized by a relentless pursuit of efficiency, innovation, and resource optimization as organizations aim to ...

CW & Modulated Lasers Oxxius FlexxRay from 375 to 1064 nm

01 - What is the difference between a diode laser and a DPSS laser? Oxxius uses two complementary technologies in FlexxRay. Understanding the difference is key to choosing the right model:

Global Leader in Materials, Networking, and Lasers

Learn how Coherent empowers innovations and breakthrough technologies for the industrial, communications, electronics, and instrumentation markets.

DPSS Laser Modules Market To Reach New Heights by 2035 Amid ...

© 2026 DOLPHIN FIBER SYSTEMS - All rights reserved

World DPSS Laser Modules market forecast 2026-2035: CAGR 7.9%, index 215. Growth driven by semiconductor, industrial automation, and precision manufacturing.

Oxxius FlexxRay lasers – compact CW and modulated lasers

FlexxRay is a series of compact CW and modulated lasers from Oxxius, covering more than 30 wavelengths in the 375–1064 nm range (UV–VIS–NIR), with power up to 1000 mW. It combines two

DPSS Laser Modules Market in the world | Report

The World DPSS Laser Modules market encompasses the design, production, and distribution of diode-pumped solid-state laser subassemblies used in industrial, scientific, medical,

Laser pointer

Trails by a 15 mW green laser pointer in a time exposure of a living room at night High power (W) Diode Pumped Green Lasers first appeared on the market in

High Power Lasers Diodes (10W ~ 1kW)

MEDICAL LASERS AND DIRECT DIODE MATERIALS PROCESSING SOURCES: Aesthetic and medical lasers are most often based on either a direct diode

473nm DPSS Laser Gaussian Circular Beam Small Spot Size < 1.0

473nm DPSS Laser Gaussian Circular Beam Small Spot Size 1.0 mm for Labs Wavelength: 473 nm Spatial Mode: TEM00 Output Power: 5mW,10mW.,200 mW Residual IR (1064,808,946nm etc):

MOPA Fiber Laser | JPT MOPA Laser Source & Engraver-JPT Laser

JPT is a leading laser manufacturer in the world, offering a full range of MOPA, CW, DPSS, and Diode lasers. Our products enable precise welding, cutting, micro/nano marking, and surface processing.
