F24 Fiber Optic Switch

Overview

Discover the IBM SAN24B-6 (machine type 8960, model F24) – a compact, enterprise-grade 24-port 32 Gb Fibre Channel switch designed for next-generation SAN fabric connectivity. We offer a wide selection of various switches (fiber optic switches, SFP switches) in different form designs and with different features. This allows you to find the perfect connection for any application. Ideal for high-performance storage networking with IBM Storwize, FlashSystem, DS8000, and other modern storage arrays, as. Request personal offer! We will respond within 30 minutes during our opening hours!IBM Storage Networking SAN24B-6 is an entry-level switch that combines high-performance capabilities of 4, 8, 16 and 32 Gbps with point-and-click simplicity and enterprise-class functionality. It provides small to midsized data centers with low-cost access to industry-leading Gen 6 Fibre Channel. a access. To meet these dynamic business demands, the network must evolve to improve speed. Cisco MDS 9124V 64-Gbps 24-Port Fibre Channel switch brings the latest high-performance, low-latency Fibre Channel Storage Area Network (SAN) technology to market.
