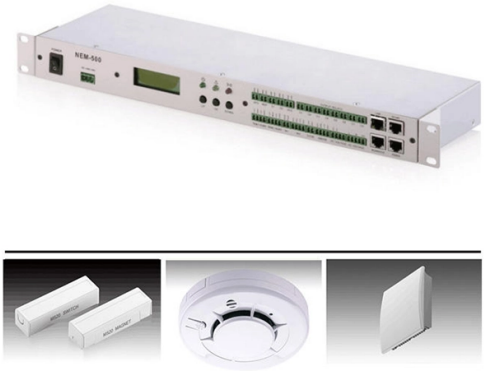
Fiber distribution box and splice box



Overview

Splice boxes and splice distributors are essential for a reliable fiber optic cabling system and serve as a connecting point between the fiber optic installation cable and the in-house network. High quality components ensure a secure and stable operation. With their compact and uniform design, the splice boxes for both the DIN rail and 19" mounting provide ample interior space for the secure connection of fiber optics. Distributor, design: Rail-mountable module, degree of. Photographs and graphics are not to scale and do not represent detailed images of the respective products. Recubrimiento electroestático en polvo 100-150 µ. Bajo petición, color e Impresión directa con texto, logotipos, etc. Price and other details may vary based on product size and color.
