Cable tray specifications 300150

Overview

· Atkore Marco''s Steel Wire Cable Tray has a whole range of supporting accessories which cater to almost any on site requirement.

Key Takeaways

The Cablofil CF150/300EZ cable tray measures 120 inches in length, 12 inches in width, and 6 inches in height, featuring a welded steel wire mesh design with Safe-T-Edge protection.

Dimensions and Design

The CF150/300EZ cable tray has a length of 120 inches (10 ft), width of 12 inches, and height of 6 inches. It is constructed from high-quality welded steel wire, with lateral wires "T" welded to the top edge wire to create a Safe-T-Edge, which prevents cable fraying and protects installers from sharp wire ends. The tray is part of a wire mesh system optimized for strength and durability, suitable for low-voltage and data cables.

Material and Finish Options

The tray is available in multiple finishes: Electro Zinc (EZ)Hot-Dipped Galvanized (GC)304L Stainless Steel (IN)316L Stainless Steel (IN)UL Classified powder-coated colors (Black and custom colors) The optimized wire size design ensures maximum load capacity while maintaining a lightweight structure.

Compliance and Standards

The CF150/300EZ meets key industry standards: NEMA VE 1 for metallic cable tray systemsCSA C22. 2 No. 126 for wire mesh traysRoHS Directive compliance for material restrictions It is designed to conform to ANSI/NFPA 70 (National Electrical Code) and relevant ASTM standards for steel and zinc coatings.

Installation Features

The tray is compatible with the FAS support system, which allows for tool-free installation using a one-step process without screws or bolts. Its modular design enables easy adaptation as cable management needs change. The wire mesh construction allows for ventilation and heat dissipation, reducing the risk of overheating for installed cables.

Applications

The CF150/300EZ is suitable for: Data centers and IT infrastructureLow-voltage and communication cablingIndustrial and commercial electrical installations Its durable, load-optimized design ensures long-term reliability in demanding environments.
