# Fiber Optic Cable Streamline

## Overview

Streamline Telecom offers expert fiber optic services including installation, testing, & maintenance. Trust our certified team for reliable telecom solutions. Industry-unique Optiq solutions are used for many applications in upstream oil and gas and can be easily integrated with our nonfiber-optic comprehensive measurements, products, and services for rich, evergreen insights. These microsolutions include the following: Production operators and. At Streamline Connect, we pride ourselves on being a Western Australian-owned and operated company that specialises in the construction of technology infrastructure. With a focus on collaboration and pursuit of win/win outcomes, our culture is built around our values of Safety, Enthusiasm, Agility. Fiber-optic cable costs anywhere from $1-6 per linear foot to install, and depending on how much cable your installation requires, costs can add up quickly. Fiber optic technology offers unmatched speed, bandwidth, and stability—perfect for powering multiple smart devices. We do more than just cabling! We offer you creative solutions that are crafted to your individual needs. We work with businesses large and small, from basic installations, to complex copper and fiber implementation projects across multiple floors, and multiple structures.
