In an industry where precision is not just a goal but a requirement, the quality of your stripping tool directly impacts signal integrity, network reliability, and overall. Fiber strippers are precision tools that reliably and cleanly remove a defined length of coating (often 30–40 mm) from a fiber end so that the bare glass is exposed without scratching or nicking it. Jonard Tools is committed to manufacturing our products with premium-quality materials for all our tools including our fiber optic cable strippers.
