Gyxtw communication optical cable model

Overview

GYXTW is a compact outdoor fiber optic cable design widely used in access and distribution networks, especially where space efficiency and mechanical reliability are required.

Key Takeaways

GYXTW is an outdoor, armored fiber optic cable designed for aerial and duct applications, available in single-mode (G. 652D) and multi-mode (OM3) types with 2 to 48 fiber cores.

Overview

The GYXT

W optical cable is a unitube, light-armored, loose-tube fiber optic cable suitable for outdoor environments, particularly for aerial and duct installations. It is designed to withstand harsh conditions, including mechanical stress, moisture, and temperature variations, making it ideal for telecommunication networks, metropolitan networks, and access networks.

Construction Features

Central Loose Tube: Encases optical fibers in a gel-filled tube to prevent water ingress and provide flexibility. Fiber Types: Available in single-mode (G. 652D) for long-distance transmission and multi-mode (OM3) for shorter distances, supporting 150–300 meters.

Fiber Count: Ranges from 2 (duplex) to 48 cores, with common models including 6, 12, 16, and 24 cores. Strength Members: Metal wires or double wire reinforcement provide excellent tensile strength and strain resistance. Armoring: Steel-polyethylene bonded sheath (PSP) or steel tape armor enhances crush resistance and outdoor durability.

Waterproofing: Many models include a water-blocking tape to prevent moisture penetration.

Applications

Outdoor Aerial Laying: Overhead installation in urban or rural areas. Duct Installation: Suitable for underground ducts where mechanical protection is required. Telecommunication Networks: Connects central offices, metropolitan networks, and access networks.

High-

Density Fiber Requirements: Supports situations where multiple fiber cores are needed in a single cable.

Advantages

Durable and Moisture-Resistant: Steel reinforcement and water-blocking features protect fibers from environmental damage. Flexible Installation: Loose-tube design allows easy handling and installation without specialized equipment. Versatile Fiber Options: Choice of single-mode or multi-mode fibers accommodates different transmission distances and network requirements.

In summary, the GYXTW optical cable is a robust, versatile solution for outdoor fiber optic networks, offering a combination of mechanical strength, water resistance, and flexible fiber configurations suitable for both aerial and duct applications.

GYXTW Fiber Optic Cable – Everything You Need to Know

GYXTW is a compact outdoor fiber optic cable design widely used in access and distribution networks, especially where space efficiency and mechanical reliability are required.

GYXTW, GYXTW Fiber Optic Cable, GYXTW 4b1, GYXTW 6b1,

This type of cable is widely used for long-distance communication and inter-office communication, gaining popularity globally. Among these cables, the 8-core GYXTW Fiber Optic Cable stands out as

What is the GYXTW fiber optic cable?

© 2026 DOLPHIN FIBER SYSTEMS - All rights reserved

GYXTW form of fiber optic cable is one that has an outer tube structure laid in the air, most suitable for outdoor environments of overhead

Understanding GYXTW Fiber Optic Cable: Structure, Features, and ...

GYXTW is a central loose tube outdoor optical cable, where the optical fibers are housed in a gel-filled loose tube positioned in the center of the cable. The loose tube protects the fibers from

GYXTW 2-24 Core Outdoor Optical Fiber Cable

GYXTW outdoor fiber optic cable, is also called single loose tube steel tape armored cable, is consisted of 250um fibers held in an gel filled central loose tube surrounded by water-blocking tape an den

GYXTW Armored Optical Fiber Cable Specs | PDF | Optical Fiber

The document outlines the specifications for an armored optic cable (GYXTW), detailing its construction, fiber identification, optical fiber types, and mechanical/environmental performance tests.

High Quality Optic Fiber Cable 4cores 12cores 24cores 12FO G652D

Key attributes Brand Name Ebocom Model Number GYXTW Type Outdoor Fiber Optic Cable Place of Origin Shandong, China Number of Conductors ≥ 10 Fiber Type G652D

Wholesale 8 Core Fiber Optic Cable Price Per m GYTC8A Model ...

Buy 8-core fiber optic cable at low prices, starting from $0.37/m. Available in large volumes. Ideal for resale, suitable for telecommunications projects. Wholesale deals await!

High Capacity Professional 8 Core G652D Single Mode Armored GYXTW ...

High Capacity Professional 8 Core G652D Single Mode Armored GYXTW Outdoor Fiber Optic Cable for FTTH Network No reviews yet $0.26 Minimum order quantity: 9,000 kilometers

GYXTW 48 Core Outdoor Optical Fiber Cable Single Mode Triangle

Model Number GYXTW Brand Name THT Place of Origin Henan, China Type Steel Tape Armoured GYXTW Outdoor Use Aerial Fiber Optical Cable Application aerial, duct, direct burial Structure

2 Core Fiber Optic Cable Price

Discover 2 core fiber optic cable price deals with CE-certified, LSZH jacket cables for FTTH networks. Ideal for fiber optic internet cable applications.

8 Fibers Multimode Single Armor Single Jacket Central Loose Tube ...
