K930 Microcomputer Relay Protection Tester

Overview

Find many great new & used options and get the best deals for Microcomputer relay protection tester secondary current equipment testing relay at the best online prices at eBay!

Key Takeaways

The K930 Microcomputer Relay Protection Tester is available at competitive prices from multiple manufacturers, offering high-accuracy testing for relay protection, transformer differential protection, and excitation control.

Key Features

Phase Output: Standard four-phase voltage and three-phase current output, suitable for both traditional and modern microcomputer protection devices. Testing Capabilities: Supports transformer differential protection, auto-reclosing devices, excitation measurement, fault recording, and metering. System & Interface: Built-in Windows XP system with recovery function, user-friendly interface, USB connectivity, and optional laptop operation.

Hardware: DSP+FPGA structure, high-fidelity linear power amplifier, ultra-thin industrial keyboard, and optical mouse. Calibration & Output: Software self-calibration and independent DC auxiliary voltage output for precise testing.

Supplier Options and Pricing

Hertz Power: Offers low-price K930 testers with OEM/ODM customization, fast delivery (5–7 days for in-stock items), and factory support.

GFUV

E Test-330: Three-phase current output and five-phase voltage output system, suitable for professional fields including electric power, petrochemical, and military industries.

Hua

Zheng Electric: Portable three-phase secondary current injection test set, widely used in China and exported internationally, with competitive pricing and prompt shipment.

GAO

Tek: Provides high-accuracy microcomputer three-phase relay protection testers supporting multiple phase current and voltage channels.

Considerations for Purchase

Customization: Many suppliers accept OEM/ODM requests for branding or software modifications. Warranty & Support: Standard warranty is typically one year, with after-sales support and technical guidance available. Delivery: Lead times vary depending on stock availability and order quantity; in-stock items can be shipped within a week.

Global Shipping: Several suppliers export worldwide, including the US, Europe, and Asia.

Recommendation

For a low-cost K930 Microcomputer Relay Protection Tester, consider suppliers like Hertz Power or HuaZheng Electric, which offer competitive pricing, fast delivery, and customization options. Ensure the device meets your technical requirements for phase output, voltage/current range, and software compatibility before purchase.

Microcomputer relay protection tester secondary current ...

Find many great new & used options and get the best deals for Microcomputer relay protection tester secondary current equipment testing relay at the best online prices at eBay! Free

Three-phase microcomputer relay protection tester

A: Generally, our price is valid within one month from the date of quotation. The price will be adjusted appropriately as the price fluctuation of raw material in the market.

Three-phase Microcomputer Relay protection Tester Relay protection ...

It can conveniently test and scan various protection settings, perform fault playback, store test data in real time, display vector graphics, and print reports online.

3 Phase Microcomputer Relay Protection Tester Secondary ...

Earth Resistance Tester. (1)Three Phase Current Output:Three Phase Current Output. (2)Three Phase Parallel Output:Three Phase Parallel Output. Insulation Resistance. (3)Max Output

Kgjb-730 Four Phase Microcomputer Relay Protection Instrument

KGJB-730 Four Phase Microcomputer Relay Protection Instrument Leakage Current Detector ISO9001 FeatureKDJB-730 microcomputer relay protection tester has 4 phase voltage and 3 phase current

Microcomputer 3 Phase Secondary Current Injection

Microcomputer 3 Phase Secondary Current Injection Test Device Lab Equipment Price, Find Details and Price about Relay Protection Tester Relay Protection

Six phase universal protection device relay test kit

Test-630 Six Phase Universal protection relay test kit have 6U6I output, it is a universal protection relay test quipment with Eight pairs of binary input and four

2025 Factory Low Price Microcomputer Relay Protection Tester

This instrument features standard four-phase voltage and three-phase current output,capable of testing traditional relays and protection devices as well as modern microcomputer protections is especially

Microcomputer Protection Relay Calibrator Current

Microcomputer Protection Relay Calibrator Current Protection Relay Tester, Find Details and Price about Test Machine and Test Equipment from Kiyu Power

© 2026 DOLPHIN FIBER SYSTEMS - All rights reserved

Auto Relay Tester Microcomputer Protection Relay Test Set

Auto Relay Tester Microcomputer Protection Relay Test Set, Find Details and Price about Auto Relay Tester and Microcomputer Protection Relay Tester from Wuhan Huayi Electric Power Technology

Protection relay testing device, Protection relay test equipment

Find your protection relay testing device easily amongst the 72 products from the leading brands (MEGGER, SIEMENS, Liebherr, ...) on DirectIndustry, the industry specialist for your professional

Microcomputer Relay Protection Tester Relay Testing

Microcomputer Relay Protection Tester Relay Testing Equipment, Find Details and Price about Test Machine and Test Equipment from Kiyu Power Wuhan Co., Ltd.

Relay protection tester,microcomputer relay protection tester,relay ...

Equipped with advanced DSP technology, a high-fidelity linear amplifier, and multiple digital interfaces, it ensures reliable, efficient, and automated protection system calibration. Compact and portable, it''s

Best Price Protection Relay Tester Microcomputer Protection Relay

If you are looking for 3 Phase Relay Test Set and Protection Relay Test Set supplier and factory, we are a good choice. Contact us to get the best price of Relay Test Set.

Wuhan Huayi HY661 Six Phase Microcomputer Protection Reply Tester

Product overview Wuhan Huayi HY661 Six Phase Microcomputer Protection Relay Tester is a high-precision, intelligent testing instrument designed for comprehensive protection system verification in

Three phase relay protection microcomputer test system

Test-330 three phase microcomputer protection relay test system is the highly efficient relay test equipment of GFUVE company. It is produced by referring to technical condition for "DL/T624-2010"

Micro-Computer Relay Protection Testing System

The tester can not only test traditional relays and protective devices, but also test modern microcomputer-based protective devices, especially the differential

Three Phase Microcomputer Relay Protection Tester for

Three Phase Microcomputer Relay Protection Tester for Substation Protection, Find Details and Price about Microcomputer Relay Protection Tester 3 Phase Relay
