Nano Optical Module Company

Overview

NOB offers neutron polarizing, collimating and focusing devices for neutron scattering and 2D variable line space gratings for spectroscopy of soft x-rays. North Ocean Photonics□NOP□is a high - tech company dedicated to Wafer Level Optics (WLO) and optical integration. NOP has Shanghai R&D + MP site, Suzhou site, Hong Kong site and European material center. Leveraging its long time accumulated technological background and high - precision. Accelerate your product innovation with scalable, ISO-certified micro- and nano-optics—trusted by leaders in automotive, consumer electronics, life sciences, aerospace, communications, document security, brand protection, watchmaking, and more. Micro and nano-optical components offer extreme. The number of venture-backed optical component startups has exploded - the Optical Component Start-Up Tracker identifies these companies and their value propositions. With their ultra-precise performance at customized wavelengths, they satisfy the highest quality standards and help to improve the accuracy of the most demanding measurements. To help you choose the best partner, this article will analyze and. As NanoOpto Corporation creates new classes of densely integrated, modular nano-optic components, our design and nano-manufacturing capabilities are redefining cost and performance.

Article Content

Micro-nano optics for scalable photonics

Micro and nano-optical components offer extreme precision, compactness, and novel functionalities beyond traditional optics. CSEM specializes in the

Optical Component Startup Tracker

The number of venture-backed optical component startups has exploded - the Optical Component Start-Up Tracker identifies these companies and their value propositions.

nanoplus Nanosystems and Technologies GmbH

nanoplus offers semiconductor lasers, LEDs and superluminescent diodes for high-precision gas sensing. Learn more about their available products and services here.

10 companies in the optical transceiver industry chain 2024

To help you choose the best partner, this article will analyze and introduce 10 companies in the optical transceiver industry chain for you.

Welcome to NanoOpto

Creates new classes of densely integrated, modular nano-optic components, our design & nano-manufacturing capabilities are redefining cost and performance.

Goeroptics Debuts Innovative AR Etching Waveguide

Since 2017, Goeroptics has been developing DLP projection light engines, providing end-to-end solutions from optical design to assembly. The

Hypernano Optics

Shenzhen Hypernano Optics Technology Co., Ltd. was established in 2019, focusing on the design, process development, module

Home | Nanooptics-berlin

We produce neutron optical devices for polarising, analysing, collimating and focusing cold neutron beams. We offer reflection zone plates and 2D variable line space gratings for focusing and

NANOPTIQS – Optics Redefined

IQS NANOPTIQS uses a revolutionary approach to create thin and miniaturized printed optics with unique features unattainable by traditional (extruded or

Laser Module & System Manufacturers

© 2026 DOLPHIN FIBER SYSTEMS - All rights reserved

Laser Module & System Manufacturers 702 Laser manufacturers listed. A Laser, also known as Light Amplification by Stimulated Emission of Radiation, is a device that produces a coherent and

2MP 10x Optical Zoom MIPI CSI-2 Camera for Jetson

Hi everyone, I wanted to share some observations from working with a compact 2MP optical-zoom camera module that integrates directly with Jetson

ZYGO | Precision Optical Metrology | Optical Components

ZYGO is a worldwide supplier of optical metrology systems, custom optical components, and complex electro-optical systems design and

10 New Nanofabrication Companies | StartUs Insights

Explore 10 new nanofabrication companies from 600+ new entrants, offering optical microscopy, biocompatible sensors & more.

Technology Partner for Optics, Photonics and

As a global photonics company, we focus on optical technologies and use the potential of light to advance our customers in global markets!

Top Nanotechnology Companies 2026 | Built In

Check out this list of the top Nanotechnology companies. See company benefits, info, interviews and more at Built In.

Latest Ranking of Top 10 Global Optical Module Suppliers

Recently, LightCounting, a well-known market research organization in the optical communication industry, released the latest issue of its market report and updated the TOP10

Himax to Make Strategic Investment in FOCI Private Placement

HSINCHU and TAINAN, Taiwan – June 11, 2024 – FOCI Fiber Optic Communications, Inc. (TPEX: 3363) (“FOCI”), announced today that its Board of Directors has approved the issuance of 5,000,000

Nanoscribe | Leader in high-resolution 3D printing

As the pioneer and market leader in high-precision additive manufacturing, we push the limits of high-resolution 3D printing and challenge the state-of-the-art in nano
