Parameters of 96-core fiber optic patch panel

Overview

HDPP01-96F-1U is a high density fiber optic patch panel that made by high quality cold roll steel material, the surface is with electrostatic powder spraying. It is sliding type 1U height for 19inch rack mounted application. ✔ 96-Fiber Capacity – Supports 8x MPO-12 or 4x MPO-24 inputs. This comprehensive solution provides high-density fiber connectivity in a compact 1U form factor, making it ideal for modern data center and. 1U 19" fibre patch panel equipped with LC connectors to ofer an economical, high-density fibre termination solution that doesn't take up much space. These compact patch panels mount easily in any standard 19” rack or cabinet to provide eficient and easy management of fibre optic cables. Robust Construction: Made from CRS cold-rolled steel for durability and long-term.
