Thorlabs Optical Power Meter

Overview

Thorlabs' expanding line of optical power and energy meters includes a large selection of sensor heads, single- and dual-channel power and energy meter consoles, power and energy meter interfaces, a wireless power meter with a built-in photodiode. Thorlabs' expanding line of optical power and energy meters includes a large selection of sensor heads, single- and dual-channel power and energy meter consoles, power and energy meter interfaces, a wireless power meter with a built-in photodiode. Thorlabs' expanding line of optical power and energy meters includes a large selection of sensor heads, single- and dual-channel power and energy meter consoles, power and energy meter interfaces, a wireless power meter with a built-in photodiode sensor, and a fiber optic power meter designed for. The S130C sensor features a sliding neutral density filter. Without the filter, the power measurement range is 500 pW to 5 mW, while with the filter, the range is 5 mW to 500 mW. The consoles (PM100, PM400, and PM300 Series) when. The PM60 Series Fiber Optic Power Meters are robust, handheld instruments that are ideal for both lab and field applications. Each unit includes a rechargeable 2300 mAh LiPo battery that has the capacity for continuous operation throughout a workday. The PM60A power meter features an internal Si. PM100USB 1 General Information The PM100USB Optical Power and Energy Meter measures the optical power of laser light or other monochromatic or near monochromatic light, detected by an appropriate sensor and is compatible with all Thorlabs “C-Series” Photodiodes, Thermal Sensors, Pyroelectrics.

Article Content

Thorlabs · Optical Power Meter Kits

Our optical power meter kits consist of a console, a C-series photodiode or thermal power sensor, and a post mounting assembly. The sensor in each kit is paired

PM20 Series

Find out all of the information about the Thorlabs product: optical power meter PM20 Series. Contact a supplier or the parent company directly to get a quote or to find

Thorlabs C-Series Optical Power and Energy Meters

Thorlabs'' C-Series Photodiode Power Meter Sensors cover a wide power and wavelength range. These sensors are offered in standard, slim, microscope slide, integrating sphere, and compact fiber

Fiber Optic Power Meters with Internal Sensor

The PM60 Series Fiber Optic Power Meters are robust, handheld instruments that are ideal for both lab and field applications. Each unit includes a rechargeable 2300 mAh LiPo battery that has the

THORLABS PM100USB OPERATION MANUAL Pdf

View and Download THORLABS PM100USB operation manual online. Optical Power Meter. PM100USB measuring instruments pdf manual download.

Thorlabs · Calibrated Thermal Position & Power Sensors

For information on recalibration services for these products, please contact Tech Support. Compatible Power Meter Console and Power Meter Interfaces Both detectors feature C-Series connectors and

Light_Analysis_Examples/C sharp/Thorlabs PM5020 Power and Energy Meter ...

Software examples for Thorlabs products: Spectrometers CCSxxx | Polarimeter PAX1000 | Power Meter PMxxx | Optical Spectrum Analyzers OSA | Shack-Hartmann Wavefront Sensors WFSxx | CMOS

Thorlabs · S120VC Standard Photodiode Power Sensor, UV-Extended

/ Light Analysis / Optical Power and Energy Meters / Photodiode Power Sensors (C-Series) / S120VC Post Not Included CAD PDF Product Family

Exploring the Growth Potential of the United States Optical Fiber ...

© 2026 DOLPHIN FIBER SYSTEMS - All rights reserved

The United States Optical Fiber Optical Power Meter market features competitive players including Fluke Power Quality, Thorlabs, Newport Corporation, Joinwit, NOYES, and EXFO, among

Thorlabs · Single Mode Fiber

Thorlabs offers these single mode fibers for operating wavelengths from 320 nm to 2200 nm. Details on the physical and optical properties of these fibers are provided in Tables G1.1, G2.1, G3.1, G4.1,

Optical Wavelength Meters from Thorlabs Inc

Thorlabs Inc - WM201 Optical Wavelength Meter from Thorlabs Inc Description: 350 to 1100 nm CW Wavelength Meter with 2 to 30 µW Power Operation Mode: CW Lasers Wavelength Range: 350 to

The value, segment market share, and segment analysis of the Japan ...

The current outlook of the Japan Fiber Optic Power Meters Market is promising, driven by the growing demand for high-speed internet, advancements in telecommunications infrastructure,

United States Fiber Optic Power Meters Industry Overview 2026

The United States Fiber Optic Power Meters Market is poised for significant growth, projected to expand at a CAGR of 5.5% from 2026 to 2033. This market is evolving due to increased demand for ...

Evaluating the Europe Fiber Optic Power Meters Market ...

The Europe Fiber Optic Power Meters Market is set to witness significant growth, projecting a CAGR of 10.6% from 2026 to 2033. This expansion is driven by increasing demand for high-speed internet ...

Global Optical Power Meter Market Research Report 2025

Thorlabs Optical Power Meter Specification and Application Table 72. Thorlabs Optical Power Meter Production (K Units), Value (US$ Million), Price (USD/Unit) and Gross Margin (2020-2025) Table 73.

Optical Power Meter Market Size to Grow USD 9.09 Billion by 2035 ...

At a CAGR of 9.55%, the U.S. Optical Power Meter Market was estimated to be USD 0.69 Billion in 2025 and expected to reach USD 1.72 Billion by 2035 growing during 2026–2035. In

Thorlabs SPL-H Fiber Optic Components Suite

© 2026 DOLPHIN FIBER SYSTEMS - All rights reserved

Software & Data Management Thorlabs provides native integration via Kinesis® v1.14.30 and APT™ software suites, enabling automated characterization of insertion loss, polarization extinction ratio

THORLABS PM160T-HP High-Power Used machines

For sale is a high-power, precision handheld optical laser power meter manufactured by Thorlabs GmbH, model PM160T-HP (High-Power Thermal Version). This device is designed to measure laser
