Includes fiber optic cable panel socket

Overview

Engineered for seamless integration between indoor fiber optic cables and pigtails, this socket panel is compatible with SC, LC, and FC connectors. The 2 port fiber wall outlet box is used as termination point to interconnect incoming cable with optical network unit device in FTTH, FTTB applications. It is typically installed inside the subscriber's home or building, close to the central distribution point provided by the broadband service. A Fiber Optic Socket Wall Outlet, also called a fiber optic faceplate or optical termination outlet, is a mounted interface designed to house and protect fiber optic terminations, such as SC, LC, or ST connectors. Cleaver-Set, Faser-Guide Special item, note delivery time! €3. These units, often referred to as optical fiber wall sockets or indoor. NG4access ® Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access ® Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration.
