KVM Switch IP Settings

Overview

This tutorial introduces the steps to set a static IP for your GL. iNet KVM directly on the console when its upstream router can't allocate one. Log in to your Comet's console, and navigate to Settings -> Network -> Modify. This guide walks you through six simple steps to set up a KVM over IP system using the AV Access 4KIPJ200 series, a professional solution that delivers 4K@60Hz video, ultra-low latency, keyboard/mouse roaming, and video wall capabilities. A KVM (Keyboard, Video, Mouse) over IP system allows you to. Managing the network on a KVM hypervisor is one of those tasks that separates a functional lab from a production-ready virtualization platform. IP-KVM switch can be used in a multi administrator and multi server environment as well. Setting Static IP via Router Most routers have a feature for setting.
