Network cable access panel with fiber optic cable

Overview

A fiber patch panel is a structured solution for organizing and managing fiber optic cable connections in a network. These panels offer designated connection points for cables, keeping them neatly routed, easily accessible, and protected from damage. NG4access ® Cabled Modules available in all module sizes and fiber counts up to 864 fibers NG4access ® Splice Tray Four sizes of interchangeable Propel fiber pass-through adapter packs provide the breadth of capabilities for virtually any configuration. Versatile Applications: The Optical Panel is perfect. nagement and superior fiber protection for use in 2 and 4-post racks. Cable Organization:. The 2RU Front-Access V-Panel (FVP) facilitates rapid, cold-aisle, front-access splicing and patching of up to 288 fibers utilizing SpiderWeb Ribbon® (SWR®) Technology to pre-loaded, high-performance SWR LC pigtails. The one-person rack-mountable unit is easy to work with and both lightweight and. Corning has a wide variety of hardware solutions to choose from to fit your cabling needs.
